59457

MONTANA STOCKGROWERS ASSOCIATION  
420 N. California | Helena, MT 59601

**Customer Service**– Providing health, feedlot and grid performance data for our customers for over 25 years.

**Reminisce Cows**– Cow herd performance starts with measuring structural soundness and disposition. If these 2 traits aren't in order, it doesn't matter how fertile she is or how big of calf she can raise.

**Reminisce Bulls**– Born and raised in altitudes above 7,000.' Developed on a 41 mega cal ration; Summered in big sage brush pastures to learn to travel in big country.

## How Good are Your Cattle?

Bragging rights on performance begin and end on the rail. On that day you will know how healthy they were, how well they gained, how well they converted, and how well they will taste to a consumer that doesn't know you. We all sell our cattle by the pound and on that day you will be paid accordingly. Do you know how good your cattle are? Reminisce Angus customers do. They have the data. They have the bragging rights.

*Bulls that will keep you in the Cow Business!*

### *By Leoma Donsbach on behalf of the MSGA Seedstock Committee*

Montana's strong reputation as an elite source of seedstock and feeder cattle is highlighted throughout the 2024 Montana Stockgrowers Association (MSGA) Seedstock and Commercial Directory and across our great state. We encourage you to reach out and engage with the producers inside these pages because

the programs featured are some of the finest in the nation.

As we travel through 2024, there's a strong feeling of anticipation as we await what we can only hope are more good things to come. This cheerful outlook is more than likely fueled by the unprecedented prices, welcome moisture, and pairs being kicked out for summer grazing in promising grass-filled pastures. Of course, this year has also brought forth challenges and potential disruptions to our businesses, which is why we are grateful to the MSGA staff, board of directors, and members who work diligently to cover as much ground as possible advocating on behalf of our membership every day. It's been stated some of the most expensive words in the beef business are "because we've always done it that way" and as we look toward the future, I do have one ask of you and it's to participate. We make the choice on whether we're going to engage and furthermore, it is our responsibility, to lend a hand in the advocacy efforts when we can. After all, this is our livelihood, our legacy, all the hours of blood, sweat, and toil have gone into creating. If you're in a position to attend the events or donate to the cause, the world is changed by those who do. Becoming active in committees, public comment sessions, and attending gatherings, are just a few of the best places to voice opinions and listen firsthand to the discussions.

Speaking of the future and advocacy, our industry is constantly facing adversity and challenges. A quote I turn to often about change is from Charles Darwin. "It is not the strongest of the species that survives, nor the most intelligent, but the one most responsive to change." As an industry, we have continued to change and it's that willingness to adapt which ensures we will not only survive but thrive for years to come. Darwin's quote also serves as a great reminder that it takes a collective to respond and the generosity from advertisers within this directory provides additional resources to MSGA for assisting with advocacy efforts. I wish to thank my fellow Seedstock committee members for all the efforts during the year to contribute to the tremendous success of this publication, especially Devin Murnin for your expertise and guidance. On behalf of the committee, we would like to express our appreciation to all the 2024 priority page buyers, and to the MSGA staff and membership, we say THANK YOU for your support, dedication, and donations. We invite each of you to participate in the Grand Finale banquet, don't miss out on the opportunity to be a part of the solution. We look forward to seeing you in December!

*Leoma Donsbach*

The **Montana Stockgrowers Association** is a non-profit membership organization that has worked on behalf of Montana's cattle ranching families since 1884. Our mission is to protect and enhance Montana ranch families' ability to grow and deliver safe, healthy, sustainably produced beef to the world.

MSGA consists of individual members and 19 local affiliate groups. The MSGA Board of Directors is elected by the voting membership and consists of 13 members; two directors from each district and three elected officers. MSGA directors volunteer their time to travel to important industry events and meetings to ensure representation of Montana's ranching families.

Policy is set by MSGA's members and affiliates during the Annual Convention and MidYear meeting. MSGA's staff represents and promotes policies set by the membership in the state and national legislature, governmental agencies, media, and consumer groups.

**The 2024 MONTANA SEEDSTOCK  
& COMMERCIAL CATTLE DIRECTORY**

Published August 2024 by the Montana Stockgrowers Association Helena, Montana

The Montana Seedstock & Commercial Cattle Directory is produced annually by the Seedstock Committee of the Montana Stockgrowers Association to promote the excellence of Montana cattle and businesses.

It is our sincere wish that this publication will help introduce cattle buyers to cattle producers and enhance the awareness of Montana genetics and commercial cattle.

## PRODUCTION SALE

**DECEMBER 9, 2024**

*at the Ranch in Pony, MT*

**SITZ PROFOUND 680G**

Profound is a son of Sitz Stellar 726D and the top selling bull in the 2020 Sitz Angus Bull Sale. Profound is docile with thick, deep muscle. His calves carry his look, feet and have lots of vigor and eye-appeal. His PAP score, taken in 2021 after several months breeding at elevations above 6000 ft., was 37.

**Reg AAA: 19392993**

**Sire: Sitz Stellar 726D // MGS: Sitz Upward 9873**  
**CED +3 | BW +.5 | WW +70 | YW +135 | Milk +28**

**ELLINGSON PREEMINENT**

Top selling bull in the 2023 Ellingson Angus production sale. He offers added stoutness, fleshing ability, structural correctness, large scrotal, excellent feet and super quiet disposition. His dam, EA Bells Girl 7617, has earned elite Pathfinder status at a young age, and has produced other top sellers in past Ellingson sales, including the \$80,000 Ellingson Badlands 0285 and the \$85,000 Ellingson Brickhouse.

**Reg AAA: 20374007**

**Sire: Ellingson Profound 8155 // MGS: Koupal Advance 28**  
**CED +5 | BW +4 | WW +87 | YW +147 | Milk +18**

**KOUPALS B&B CONVICTION 3058**

High selling bull at Koupal's B&B spring sale. Very phenotypically correct, standing on excellent feet with added depth of heel. 41cm scrotal. Stacked for fertility and longevity, three maternal generations are ALL top producers in the Koupal's herd. He also has a super quiet disposition. We look forward to infusing his genetics into our breeding program for phenotype, fertility, longevity and disposition.

## WELCOME

*By John Grande, MSGA President*

It's a privilege to help present to you the 2024 Montana Cattle Directory. The big news in the cattle market this year may rather be a lack of big news. Specifically, the lack of rebuilding the U.S. cow herd that has fallen to its lowest levels since 1952. Cattle prices should have kicked off expansion by now. Input costs, interest rates and debt levels, the age of producers, and a lingering shortage of forage in some areas have influenced a different path.

The good news is that with continued strong beef demand, this drives high calf prices today and should do so for the foreseeable future – even more so when we do start retaining heifers thus putting even fewer cattle on feed. On a less positive note, the black swans continue flying in flocks. Highly pathogenic avian influenza in dairy cows, high carcass weights, and other factors limit prices to levels that are good – just not quite where we think they could be.

Regardless of where the market trades, some things remain true. The Montana Stockgrowers Association has had an eventful year championing Montana ranchers and fighting on many fronts from government overregulation, to water rights, to reminding folks that on environmental issues, we're the good guys!

This directory continues to fill the dual role of promoting our premium Montana cattle to buyers across the country, while also serving as a valuable source of funding for MSGA to be able to continue the fight for Montana ranchers. It wouldn't be possible without the dedicated work of the MSGA Seedstock committee members, primarily our most recent Chair John Patterson, and the new chair that we welcome with this edition, Leoma Donsbach. They continue to take this work in new and exciting directions.

As you flip through this directory, look hard at the quality of the offerings advertised. When you buy seedstock those cattle come with a vast array of information from genomically enhanced EPDs, to ratios, indexes, ultrasound measurements, and more. Many fed cattle are sold on value-based formulas, so they're paid on exactly how they perform from a weight, grade, and yield standpoint. The feeder calf in between these two points currently has the least available information to advertise when they are sold but make no mistake. The cattle with good genetics and good management behind them are worth more, and it's proven daily. I trust you will find this directory a valuable tool in finding these cattle.

Best Regards,

## Beef Country Genetics Sale

One of the largest Efficiency Tested  
bull sales in North America

**DECEMBER 4, 2024**

WEDNESDAY - 1:00 PM - MIDLAND BULL TEST, COLUMBUS, MT

150 Fall and Coming Two-Year-Old Bulls · 30 Registered Bred Heifers

*Do the Math!*

Efficiency-proven genetics offer up to  
20% more savings on the cow herd...

and 20% more savings in the feedlot, while still maintaining the same  
weaning weights. It doesn't cost you any more than making sure you are  
using the right bulls and the right program.

**MATERNAL** Research from Canada, Australia, Texas A&M, University of Florida,  
Montana State University - Dr. John Patterson, University of Missouri, University of  
Illinois... have all shown efficiency gains of 10-20% in females tested to be negative RFI  
or sired by negative RFI bulls with no impact on weaning weight, fertility or yearling  
weight.

*"By stacking generations selected for RFI improvement, greater than 20% in  
production efficiency can be achieved."* - Dr. Monty Kerley

That's over \$100/head savings in pasture and wintering costs.

**STOCKER-GRASS** A 20% savings in wintering and pasture costs can easily  
yield another \$50-\$70/head.

**FEEDLOT** Improvements in feed conversion have been proven up to 20%. Just a  
15% improvement would be  
over \$130/head savings.

CED +6 BW +1.9 WW +64 YW +122  
MILK +22 MARB +1.11 RE +41

One of our high-efficiency tested  
bulls in 2018. His sons and daughters  
have impressive phenotype, and  
his daughters have great udder  
and small teats. Top 4% of Vytelle/  
GrowSafe data base against all  
breeds for RFI efficiency, top 15% for  
combined foot score, top 10% for  
Marbling, top 15% for \$C.

# GENETICS THAT PAY

**\$20+**  
MORE PER  
CARCASS

Success on the ranch is measured in dollars.  
Data from the Tri-County Steer Carcass Futurity Cooperative  
finds packers pay \$20 to \$34 more for SimAngus® and  
Simmental-sired cattle than English-sired counterparts.\*

Simmental influence also pays at auction. SimAngus-sired  
steer calves sold through Superior Livestock Auction earn  
more at sale time than all other calves.†

It's no wonder the percentage of SimAngus calves  
marketed through the industry's largest video  
auction has grown eightfold since 2010.

**STAND STRONG SIMMENTAL**

## COMMERCIAL FEEDER CATTLE

Montana is home to 2.16 million head of cattle. These cattle range from the vast prairies to the rigid mountains. Due to the topographical variance in Montana, commercial feeder cattle experience rugged terrain and unpredictable weather. To survive, feeder cattle must adapt to these conditions. Montana's cattle are sturdy, strong and practical for any operation. Besides adapting to their environment, cattle are selected for their performance from the pasture to the feedlot. Montana cattle producers choose desirable genetics and traits that will satisfy consumers.

## Vision®

## AN EXTRA CALF WITH EVERY BOTTLE

### PROVEN PROTECTION. LESS STRESS.

Not all blackleg vaccines are the same. Some are stressful and decrease performance. Vision® isn't like that – it was developed to minimize the negative impact of vaccination on performance.

Compared to 5 mL blackleg vaccines currently on the market, calves vaccinated with a convenient 2 mL dose of Vision had up to a 9- to 18-pound weaning weight advantage. That adds up to getting an extra calf with every 50-dose bottle of Vision.\*

Talk to your veterinarian or Merck Animal Health representative about Vision vaccines today.

**Draxxin KP**  
(tulathromycin and ketoprofen injection)  
INJECTABLE SOLUTION

zoetis

**IMPORTANT SAFETY INFORMATION:** Draxxin KP has a pre-slaughter withdrawal time of 18 days in cattle. Not for use in female dairy cattle 1 year of age or older, including dry dairy cows. Not for use in beef calves less than 2 months of age, dairy calves, and veal calves. A withdrawal period has not been established for this product in pre-ruminating calves. Do not use in animals previously found to be hypersensitive to tulathromycin and ketoprofen. See Brief Summary of Full Prescribing Information on right.

\* Draxxin KP animals showed numerically improved attitude and respiratory scores compared with saline-treated and Draxxin-treated animals.

## Brief Summary of full Prescribing Information

**Draxxin® KP**  
(tulathromycin and ketoprofen injection)  
INJECTABLE SOLUTION

### For subcutaneous injection

**Antibiotic:** 100 mg of Tulathromycin/ml  
**Non-Steroidal Anti-Inflammatory Drug:** 120 mg Ketoprofen/ml

**CAUTION:** Federal law restricts this drug to use by or on the order of a licensed veterinarian

### DESCRIPTION

Draxxin KP (tulathromycin and ketoprofen injection) Injectable Solution is a ready to use sterile parenteral preparation containing tulathromycin, a semi-synthetic macrolide antibiotic of the subclass trimide and ketoprofen a non-steroidal anti-inflammatory drug. **ACTIVE INGREDIENTS:** Each mL of Draxxin KP contains 100 mg of tulathromycin as a free base and 120 mg ketoprofen as a free acid in a 50% propylene glycol vehicle. **INACTIVE INGREDIENTS:** monothiolglycerol (5 mg/mL), 2-pyrrolidone (70 mg/mL), citric acid (20 mg/mL), and sodium hydroxide/hydrochloric acid added to adjust pH. Draxxin KP contains an equilibrated mixture of two isomeric forms of tulathromycin in a 9:1 ratio and a generic mixture of ketoprofen.

The chemical names of the tulathromycin isomers are (2R,3S,4R,5R,6R,10R,11R,12S,13S,14R)-13-[(2R,6-deoxy-3-C-methyl-3-O-methyl-4-C-[(3R,6-dimethylamino)oxyl]-4-L-[(R)-hexoxypropoxy]oxy]-5-ethyl]-3,4,10-trihydroxy-3,5,8,10,12,14-hexamethyl-11-[[3,4,6-trideoxy-3-(dimethylamino)-β-D-xylo-hexopyranosyl]oxy]-1-oxa-6-azapentadecan-15-one and (2R,3R,6R,9R,10R,11S,12R)-11-[(2R,6-deoxy-3-C-methyl-3-O-methyl-4-C-[(3R,6-dimethylamino)oxyl]-4-L-[(R)-hexoxypropoxy]oxy)-2-[(1S,2R)-1,2-ethyldioxy]-1-methylbutyl]-6-hydroxy-3,6,8,10,12-pentamethyl-9-[(3R,4,6-trideoxy-3-(dimethylamino)-β-D-xylo-hexopyranosyl]oxy]-1-oxa-4-azacyclotridecan-13-one, respectively.

The chemical name of ketoprofen is 2-(3-Benzoylphenyl) propanoic acid.

### INDICATIONS

Draxxin® KP is indicated for the treatment of bovine respiratory disease (BRD) associated with *Mannheimia haemolytica*, *Pasteurella multocida*, *Histophilus somni*, and *Mycoplasma bovis*, and control of pyrexia associated with BRD in beef steers, beef heifers, beef calves 2 months of age and older, beef bulls, dairy bulls, and replacement dairy heifers. Not for use in reproducing animals over one year of age, dairy calves, or veal calves.

### DOSAGE AND ADMINISTRATION

Inject subcutaneously as a single dose in the neck at a dosage of 2.5 mg tulathromycin/kg (1.1 mL/100 lb) bodyweight (BW). Do not inject more than 10 mL per injection site. Use product within 56 days of the first puncture and puncture a maximum of 20 times. If more than 20 punctures are anticipated, the use of automatic injection equipment or a reusable syringe is recommended. When using a draw-off spike or needle with bore diameter larger than 16 gauge, discard any product remaining in the vial immediately after use.

Table 1. DRAXXIN KP Cattle Dosing Guide

Animal Weight (lb)	Dose Volume (mL)
150	1.7
200	2.3
250	2.8
300	3.4
350	4.0
400	4.5
450	5.7
500	6.8
600	8.0
800	9.1
900	10.2
1000	11.4

### CONTRAINDICATIONS

The use of Draxxin KP injection is contraindicated in animals previously found to be hypersensitive to tulathromycin and ketoprofen.

**WITHDRAWAL PERIODS AND RESIDUE WARNINGS:** Cattle must not be slaughtered for human consumption within 18 days following last treatment with this drug product. Not for use in female dairy cattle 1 year of age or older, including dry dairy cows; use in these cattle may cause drug residues in milk and/or in calves born to these cows or heifers. Not for use in beef calves less than 2 months of age, dairy calves, and veal calves. A withdrawal period has not been established for this product in pre-ruminating calves.

### USER SAFETY WARNINGS:

**NOT FOR HUMAN USE. KEEP OUT OF REACH OF CHILDREN.**

This Safety Data Sheet (SDS) provides more detailed occupational safety information. To obtain a Safety Data Sheet contact Zoetis Inc. at 1-888-963-8471.

### ANIMAL SAFETY WARNINGS AND PRECAUTIONS

The effects of Draxxin KP on bovine reproductive performance, pregnancy, and lactation have not been determined. Not for use in reproducing animals over one year of age because reproductive safety testing has not been conducted. Administration of tulathromycin and ketoprofen injection may result in injection site swelling that appears the day after treatment and may persist for at least 32 days post-injection. This may result in trim loss of edible tissue at slaughter.

As a class, cyclo-oxygenase inhibitory NSAIDs (Ketoprofen) may be associated with gastrointestinal, hepatic and renal toxicity. Sensitivity to drug-associated adverse effects varies with the individual patient. Patients at greatest risk for renal toxicity are those that are dehydrated, on concomitant diuretic therapy, or those with renal, cardiovascular, and/or hepatic dysfunction. Use judiciously when renal impairment or gastric ulceration is suspected.

Since many NSAIDs possess the potential to induce gastrointestinal ulceration, concomitant use of Draxxin KP with other anti-inflammatory drugs, such as other NSAIDs and corticosteroids, should be avoided or closely monitored.

Discontinue use if fecal blood is observed.

### ADVERSE REACTIONS

Repeated administration of NSAIDs can result in gastric or renal toxicity. Sensitivity to drug-associated adverse effects varies with the individual patient. Patients at greatest risk for toxicity are those that are dehydrated, on concomitant diuretic therapy, or those with pre-existing gastric ulcers, renal, cardiovascular, and/or hepatic dysfunction.

### HOW SUPPLIED

Draxxin KP Injection is available in the following package sizes:

50 mL vial; 100 mL vial; 250 mL vial; 500 mL vial

### STORAGE CONDITIONS

Store at or below 25°C (77°F), with excursions up to 40°C (104°F). Protect from freezing.

APPROVED BY FDA under NADA # 141-643

# THE CHURCHILL BULL PROGRAM!

**How do you make more money from your commercial herd?**  
**BY BUILDING DEMAND FOR YOUR CALVES WITH DATA LIKE THIS:**

**The Churchill home-raised steers in the  
2023 Hereford Feedlot Program at HRC Feeders**

Average age at harvest 15 months  
In weight ..... **728 lb.**  
Gain/day for 175 days ..... **4.46 lb.**  
Harvest weight ..... **1,511 lb.**  
Carcass value/head ..... **\$2,859**  
% Choice ..... **85%**  
Cost of gain ..... **\$1.17/lb.**  
Conversion ..... **4.96**

The cost of gain and feed conversions were the best in the program and by far better than the feedlot average.

If you breed your black cows to Churchill bulls, you will increase the demand for your calves and replacement females. We will get you lined up with feeders who are searching for Churchill genetics.

***Just give us a call.***

# Vermilion Ranch

## Circle L Unified

AAA #20592872  
A A R Essential x  
Circle L Lady 100E

Circle L Unified is a very exciting young herd sire who was one of the most talked about bulls of the spring sale season. He is so right in so many ways. Phenotypically hard to fault – long bodied, lots of muscle, mass and structurally sound.

Unified ranks in the Top 1% for SM and SW, Top 5% for Milk, Top 10% for CED, DOC, Claw, PAP and SC at +321. Multiple other traits also rank in the top 15-25% of the breed.

Unified is being used heavily in the Vermilion herd and will see extensive use across the breed. His service will be a real feature in our fall sale!

Owned with Circle L Angus.

CED	BEFD	WEPD	YEPD	SC	HP	CEM	MILK	DOC	CLAW	ANGLE

## SEEDSTOCK

Montana's seedstock producers have long been recognized on a national and international level for their exceptional cattle and genetics. Cattle genetics originating from Montana have been exported to every populated continent. Montana seedstock producers have stood the test of time and continue to improve their cattle genetics for their customers. They work closely with commercial cattle producers to build cattle herds that will satisfy beef consumers.

# Veseth Cattle Co.

19<sup>th</sup> Annual Sale

**March 10, 2025**

Lunch at 11:30 • Sale starts at 1:00 pm  
Glasgow Stockyards in Glasgow, MT

## *Selling*

85 Red Angus Bulls

50 Red Bred Heifers

75 Red Heifer Calves

35 Short Term Red Cows

**Veseth Cattle,  
where the focus  
is on the Female.**

- 1 Genetics.** Veseth Cattle Co. has an exhaustive Artificial Insemination (AI) program to improve their cattle. We have AI'ed 8500 females in the last 27 years.
- 2 Selection.** Veseth Cattle Co tests and verifies all production inputs and that is why only 10% of the AI sires sampled in our program are used 4 or more years.
- 3 Cost.** Veseth Cattle Co. is affordable. Our bulls average \$4300 at auction. This is a 43% savings per bull under the industry average bull. Only 1 in 3 bulls saved at the ranch makes the cut for our bull sale.
- 4 Efficiency.** Cows are grazed year-round on native range. Most of our range is 7 acres per animal unit in the Missouri Breaks. These cows must raise good calves, rebreed, and maintain their body condition on minimal inputs.
- 5 Focused on the Female.** This is where we can make our customers the most money. Our high bred females will produce over 30% more in lifetime production compared to her industry average straight bred counterparts.

**[www.VesethCattleCo.com](http://www.VesethCattleCo.com)**

## Lewistown Livestock Auction

*Serving central Montana since 1951 with regular Tuesday cattle sales.*

LLA is a premier market of Montana, located in the heart of the state, maintaining a tradition of trust and integrity for decades.

**Central Montana** is home to some of the best agricultural production land in North America, exceptional cattle genetics, and producers who are experts at maximizing their environment and cow herds. We consider central Montana cow-calf producers to be amongst the premier cow-calf producers in the northern states. **Bred cow** specials begin in November with our "Heart of the Herd" sale and are held monthly through the beginning of the spring calving season, giving buyers an opportunity to access the exceptional genetics and reputation cattle born and bred in the heart of Montana.

## Lewistown Livestock Exchange

## COMMERCIAL REPLACEMENT FEMALES

Known as the Treasure State or “Big Sky Country”, Montana reveres its number one industry – agriculture. Montana’s replacement females make up a large and vital sector of Montana’s agriculture industry. The majority of Montana’s cattle descend from English or Continental breeds. Those breeds have adapted very well to Montana’s extreme and variable environment. Montana cattle producers know that good calves come from good cows so they administer the proper vaccinations, nutritional requirements and care to replacement females, which results in healthy offspring.

*money* we can afford to lose  
- but *never* a shred of  
our reputation.

## 2025 SHOWCASE SIRES -

### BRIDLE BIT RESOURCE

PB Simmental. A fresh pedigree for our program, coming from a maternal line of tremendous performance and consistency. Very balanced in his trait suite, offering physical superiority, incredible shape to his rib and top, and a stylish profile that will build the next generation of attractive females.

### CONNEALY COMMERCE

PB Angus. An impressive combination of awesome phenotype, impeccable foot structure, and carcass building merit. We're excited to use him on our most traditional Simmental foundation dams to make elite F1 matings.

### HOOK'S EAGLE 6E

3/4 Simmental. A supremely consistent bull who sires a flawless genetic profile that adds value to every segment. His attractive combination of performance and carcass quality has proven reliable, measurable and versatile. He's the kind who builds Reputation into the Beef Business.

### CDI MAJOR IMPACT

PB Simmental. High ranks for growth, elevated yield performance and product driven offspring. We use him to build Purebred options with massive rib eye and sound calving ease that really compliment traditional Angus cows.

### CCR POUNDER

1/2 Simmental. This bull's reputation has been solidified across the nation as "consistency with no throw aways." Extra length, capacity and frame, exceptional docility and wonderful structure all built into a very attractive package for both sons and daughters. There will be more of this sire group to come!

## ASSOCIATED SERVICES

Montana has always been a leader in production agriculture in the United States. In Montana over 27,000 ranches and farms produce livestock and crops on over 58 million acres. Montana's agricultural businesses play a vital role in assisting Montana cattle producers in their everyday business. Agricultural businesses offer important products and services to Montana's ranchers, from consulting to range management. Technology and services such as artificial insemination and embryo transfer help make Montana's seedstock cattle easily accessible to customers worldwide.

**(406) 442-3420 | [www.mtbeef.org](http://www.mtbeef.org)**

We would like to take this opportunity  
to thank all the wonderful advertisers who  
purchased ads in our 2024 Montana Seedstock  
and Commercial Cattle Directory.  
Your continued support helps bring this premier  
directory to MSGA members, livestock markets,  
feeders, and cattle buyers across the U.S.

# Thank You!

Don't forget to check the directory out online @

# We Are Stronger Together

Managing political advocacy and regulation is the Montana Stockgrowers Association's (MSGA) core business, and we strive to safeguard ranchers interests from regulatory impact. Investing in MSGA is a strategic move by which ranchers can mitigate threats or create opportunities by affecting public policy decisions.

## + U.S. Congress

MSGA is the go to authority in Montana for members of Congress seeking counsel on federal tax policy, endangered species act, farm bill, federal land policy, waters of the U.S. and expanding international markets for U.S. beef, just to name a few. Estate taxes on family owned ranches often exceed cash and other liquid assets, often forcing the sale of land, property and equipment.

## + Helena and Washington D.C. Agency Representation

MSGA actively engages with the Board of Livestock, State Land Board, Department of Natural Resources and Conservation, Department of Environmental Quality, and the Fish and Wildlife Commission to advocate rancher's interests. This representation includes attending monthly meetings, briefing senior agency staff, and influencing agency decisions.

## + Montana Legislature

MSGA advances ranchers interests on numerous issues such as cattle health and brand enforcement regulations, water rights, public access, wildlife management and private property rights, everyday at the legislature.

Not only does your MSGA membership give you direct contact with companies that can help improve your bottom line, but it also provides access to the Stockgrower Update, a monthly newsletter, which you have the exclusive opportunity to read online! From the latest policies and regulations being tackled by MSGA, to the most exclusive insight and information.

When you choose to invest in a membership with MSGA, you are helping to create a better business climate for Montana ranchers. Together, we have and will continue to address the challenges within our industry. We are at a time of tremendous possibilities and, with your partnership, we have the opportunity to work together to continue to build a strong front across the industry sectors of Montana.

# Ranching for the Future

## + Raising the Steaks Ranch Tour

The Raising the Steaks Tour gathers an intimate group of thoughtful, creative individuals to put their boots on the ground and their heads in the game in facilitated diverse and informative discussions that highlight current issues and solutions to challenges ranchers and conservationists face when managing private and public lands for future generations.

## + MSGA Internship Programs

MSGA's internship programs were created to provide students with a hands-on experience of the various facets of association event planning and execution, policy development, social media engagement and coverage, and member engagement.

## + NCBA Young Cattlemen's Conference

Each year, the MSF provides a grant to support attendees of the National Cattlemen's Beef Association's Young Cattlemen's Conference. Participants travel with other national attendees to Denver, Chicago and Washington D.C. The primary objective is to develop leadership skills in young ranchers and introduce them to all aspects of the beef supply chain.

## + The Educational Heritage Scholarship

The MSF awards college students, who are seeking a career beneficial to ranching, with scholarships. This scholarship is available to a student currently enrolled in a college or university, having completed at least one semester of coursework.

## + Deferred Giving Program

The MSF partners with the Yellowstone Boys and Girls Ranch Foundation, offering MSGA members timely and practical estate planning and charitable planned giving advice specifically tailored to the needs of Montana's ranch families.

The Montana Stockgrowers Foundation (MSF) is a 501(c)3 not-for-profit organization, whose mission is "Investing in Montana's ranching community through leadership, education, and conservation." Some of today's most innovative and collaborative industry programs are supported by MSF. We support the next generation of ranchers by offering leadership programs and academic scholarships, and investing in the conservation of working landscapes.

# MSGA ANNUAL EVENTS

Our yearly events provide **EDUCATION, INFORMATION, FELLOWSHIP** and **DECISION-MAKING OPPORTUNITIES** for Montana's cattle industry's leading members **EVERY YEAR.**

**Don't Miss Out – Join Us!**

## **ANNUAL CONVENTION & TRADE SHOW**

December 4-6, 2024 | Double Tree + Northern Hotel, Billings

Held each winter, MSGA's Annual Convention boasts the state's largest ranching industry trade show, cattlemen's colleges, policy meetings, guest speakers, and some of the best networking opportunities around.

## **MIDYEAR MEETING**

May 28 - 30, 2025 | Butte, Montana

Join Montana ranchers for our summer meeting with educational workshops, foundation social and fundraiser, policy meetings, and a semi-formal dinner event with live entertainment.

## **T-BONE CLASSIC GALA DINNER & GOLF TOURNAMENT**

August 2025 | Briarwood Golf Course, Billings

Join leaders of Montana's ranching and business communities for a gala dinner and golf tournament at one of the best locations in Big Sky Country! Event benefits Montana Stockgrowers Foundation.
